## Trackway Solutions

# Trackway & Ground Protection Specialists

Part of:

Generator  
Power

In 2013, Trackway Solutions was established as a sister company of Generator Power Ltd, when accessing remote locations became more and more frequent for generator deployments.

**You find a route, we'll find a way!**

Wherever your A and wherever your B, our temporary roads get you where you need to be.

Our Trackway is a multi-industry solution, providing access and ground protection for a wide array of projects.

Whether your planning a large festival, a small construction project or conducting soil analysis with boreholes on a hill side, we're here to support you.

With our Trackway, we can construct:

Temporary roadways, walkways, car parks or remote work sites platforms.

### Panel Details:

Material: 6082 - T6 grade aluminium

Density: 2.7 g/cc

Tensile strength: 290 mpa

### Panel dimensions - W x L x D

3000mm x 2497mm x 53mm

### Usable area when joined - W x L

3000mm x 2410mm

## 300KG Aluminium Panels

Strong, solid & resilient.

## Double Sided

Heavy duty reverse side for extra traction on slopes or for use with heavier plant.

## Cross Bonding

Panels can be laid on top of each other to provide a stronger surface or to even-out terrain conditions.

## Cross Serrated Surfaces

Hardwearing, textured surface for extra grip.

## Weight Loading

Up to 12 tonnes per axle weight. Limit can be increased with cross-bonding. Please seek further advice from our team if ground conditions or excessive loading is a concern.
